

Layout Structure:

App.js

```
import React from "react";
import ImageCard from "./components/ImageCard";
import "./index.css";

const App = () => {
  return (
    <div>
      <h1>React Image Grid</h1>
      <p>A simple image grid application built with React and CSS modules.</p>
      <ImageCard />
    </div>
  );
}

export default App;
```

```
<div className="app">
  <ImageCard
    imgUrl={` ${process.env.PUBLIC_URL}/images/image.jpg` }
    title="Aman Singh"
    description="I'm a student in Vellore Institute of Technology, studying Computer Science. I enjoy doing front-end development with expertise in HTML, CSS, JavaScript, and modern frameworks like React and Vue.js."
    link="https://aman-kumar-official.github.io/portfolio/"
  />
</div>
);
};

export default App;
```

index.js

```
import React from "react";
import ReactDOM from "react-dom/client";
import "./index.css";
import App from "./App";

const container = document.getElementById("root");
const root = ReactDOM.createRoot(container);
root.render(<App />);
```

index.css

```
